HOW TO SETUP FOR
“DOMINO”

1: DOWNLOAD

- Access to this web site.
 - <http://takabosoft.com/domino>
- Click to download button under “Domino Ver.1.43 本体+説明書”.
- Saving .zip file. I recommend save that file to Download directory.

2: INSTALL

- First, Unfreeze that .zip file. Then, appear all system file and directory. If you'll can look “Domino.exe”, all install process is succeeded. So, very easy :)
